Derby Magic Race Manager	\$60.00	

All tracks include track, stand, start gate, finish line brake, and all necessary hardware for assembly.

Tracks are shipped via FedEx Ground in a sturdy, reusable doublewall corrugated box.

The track surfaces are made of extruded PVC and are immune from cracking, Nicking, warping, or water damage.

The support frame is made of structural aluminum. The drop down brake is made of wood and non-abrasive friction material. We chose the best material for each application.

Your Derby Magic track will provide many years of trouble free service. All track are guaranteed for 3 years.

Our SOF timers include a 2.25" LED's to display the sequence of finish. Our ET timers include 1" LED's for sequence of finish and 0.8" LED's for elapsed time. All timers include USB communication to your computer. The timers include wiring, AC power supply, and installation hardware.

The Derby Magic Race Manager software will keep track of all of your racers times and make your race very easy to run.

The estimated shipping costs above are for ground shipping within the contiguous U.S. The exact shipping cost to your location can be determined from www.derbymagic.com. We also have the optional solenoid starting gate for \$50.
